TECHNOLOGY

POWERFLAME FIREBOX

23PF1A

The ember bed and logs are specifically designed to maximize the flame effect, which is now brighter than ever. Our flame effect runs on 10W, which is less than the energy consumption of a light bulb.

PLUG&PLAY BUILT-IN ELECTRIC FIRE

The missing piece to your fireplace project.

Easy to install

In furniture or wood fireplace mantels. No extra hardware required.

Slim design

Having a depth of only 15 cm, the TAGU PowerFlame firebox can be easily framed into masonry fireplaces or walls using the optional FISK-23 Installation Kit.

7-DAY TIMER SAVES ENERGY

Eco-friendly and budget-friendly.

The right temperature at the right time

Set the heating schedule for each day of the week and enjoy a warm room whenever you'd like.

Precise temperature control

Stay comfortable while saving energy thanks to the built-in digital thermostat.

Open Window Detection

If the window is open or the temperature suddenly drops, the TAGU PowerFlame firebox automatically stops and takes care of the environment.

Hidden LED Display

You'll be able to see all the settings, which will disappear after one minute.

1500W HEATER INSIDE

Powerful yet silent

Whisper quiet

It's the most quiet heater we've ever developed and can warm rooms up to 37 square meters.

Sleep Timer

At night, use the Sleep Timer feature and fall asleep in a cosy ambiance.

All-season fireplace

The flame effect can work with or without the heat, so you can enjoy your fireplace year round.

ULTRA-BRIGHT FLAME EFFECT

Perfectly visible during day or night.

Adjustable flame brightness

Bright enough in a summer day or enticingly subtle for those cosy winter nights.

Energy Saving LED

The flame effect runs on 10W, which is less than the energy consumption of a light bulb.
